**Q5 Issue #5 - Intentional Depletion of Water Aquifer**The Florida Water Control Board has issued permits to allow Mosaic, Inc., one of the biggest environmentally destructive companies in our state, to withdraw 1.2 million gallons of fresh water per day from Sarasota County’s aquifer to dilute the poison draining out of Mosaic’s phosphate mining process that is then being dumped into our streams and rivers and is destructive to Sarasota County’s aquatic life, causes red tide and pollutes our fresh water. As a result, Mosaic is protected from failing their state inspections from finding unacceptable levels of contaminants.

**Q6 Issue #6 - Infrastructure Not Ready Before New Developments**  
 Approved Automobile traffic is easily predictable based on the number and types of new homes, commercial buildings and shopping centers being built. Sarasota County roads, however, are not improved and maintained to handle the increased traffic caused by approved development in our county.

Q7 Issue #7 - Waste, Conflicts of Interest, and Corruption Spending on projects is continuously and excessively high across Sarasota County. This is due, in part, to the relationships between our public officials and special interests including the real estate developers. Oftentimes these relationships create corruption whereby County Commissioners break their own statutes in the name of profits and tax income. Additionally, green spaces disappear, and urban sprawl further congests our county.

Q8 Issue #8 - School System Sarasota County residents pay a high cost for Education. Instead of our kids being indoctrinated with LGBTQ+ and Critical Race Theory ideologies, and exposure to pornographic books, we believe students will be better served with greater comprehension of our Founding documents and how the Founders designed our self-governing system.
